## Professional Summary

Frontend Developer with 2+ years of experience building scalable Single Page Applications (SPAs) using React.js and modern JavaScript frameworks. Experienced in developing responsive user interfaces, integrating REST APIs, optimizing frontend performance, and building reusable component architectures. Strong expertise in React, Next.js, Redux Toolkit, and Tailwind CSS, with a focus on creating performant, user-friendly web applications.

## Skills

**Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, Redux Toolkit, RTK Query, HTML5, CSS3, Tailwind CSS, Material UI, PWA, Axios, Framer Motion
**UI & Web Development:** Responsive Design, Component-Based Architecture, Cross-Browser Compatibility, Performance Optimization, API Integration
**Tools:** Git, Github, VS Code, Postman, Vercel, Render
**Other Skills:** Agile Development, REST API Integration, Frontend Performance Optimization

## Experience

**Software Engineer** **March 2024 – Present**
*Codes for Tomorrow* *Indore (MP), India*

- Developed Single Page Applications (SPA) using React.js, building reusable components with React Hooks, Redux Toolkit, and Context API, while implementing responsive UI using HTML5, CSS3, JavaScript and Tailwind CSS.
- Built responsive user interfaces using HTML5, CSS3, JavaScript, Tailwind CSS, and Material UI, ensuring cross-browser compatibility across desktop and mobile devices.
- Integrated frontend applications with RESTful APIs using Axios, implementing authentication flows, data fetching, and error handling.
- Implemented performance optimizations including efficient state management, component rendering improvements, and code splitting to enhance application load times.
- Mentored interns and junior developers, supporting frontend development best practices and code quality.
- Integrated third-party services and APIs such as payment gateways and authentication providers to extend application functionality.

## Projects

**Raj Express – News Website, Admin CMS & Page Builder** | React.js, Next.js, SSR | rajexpress.com

- Developed the Raj Express digital news platform including the public news website, Admin CMS, and dynamic Page Builder, while leading the team during the development and implementation of the project, enabling editors to create, manage, and publish news content efficiently.
- Implemented features for content management, article publishing, media handling, and customizable page layouts, improving editorial workflow and enabling scalable news delivery for high-traffic users.
- Optimized page performance and SEO through server-side rendering (SSR) and efficient component architecture, improving user experience and page load speed.

**iGaming / Sports Betting Platform** | React.js, Tailwind CSS, REST API Integration, RTK Query

- Developed responsive interfaces for real-time sports betting and casino games, building dynamic components such as sports sidebars, event listings, provider filters, and betting market views to support multiple sports and live events.
- Integrated APIs for real-time sports events, betting markets, and game provider data, and worked on admin panels to manage events, betting markets, providers, and platform configurations.
- Enhanced user engagement by implementing real-time UI updates and intuitive betting interfaces for multiple sports events.

## Education

**Bachelor of Technology – Computer Science and Information Technology** **2020 – 2024**
*Institute of Engineering and Science, IPS Academy, Indore*
